

STEP 1

Make an appointment today to have your pet's teeth assessed. Once the grade of dental condition or disease has been determined, one of our Veterinarians will recommend the best option for your pet; Anesthesia or Non-Anesthesia Dental Cleaning procedures.

FREE ORAL EXAM!

When applying for I-Care Financial
Or
Quote from Embrace Insurance.

A \$52.00 value!

Why bloodwork is essential for pet's before anesthesia ?

Bloodwork is important animals grow older, health can deteriorate with increased age just like humans. However, unlike humans, animals are unable to tell us when they don't feel well. For example, 75% decline of kidney function can happen before showing any symptoms at all.

\$30.00 OFF

Comprehensive Blood Panel

Tech and Osha fee's will apply

STEP 2
